

PERSONAL DEFENSE® HANDGUN

HST

NEW

Effective self-defense requires ammunition that provides consistent expansion, optimum penetration and superior terminal performance. And HST® delivers. That's why it's already the duty load of choice for law enforcement officers throughout the world. Its specially designed hollow point won't plug while passing through a variety of barriers, and the bullet jacket and core hold together to provide nearly 100 percent weight retention through even the toughest materials. ***Now available in 357 Sig, 9mm Luger +P and 45 Auto +P.***

Consistency Counts

The exclusive HST bullet is engineered to expand extremely reliably and retain nearly all of its weight through almost every kind of barrier. The result is consistent, nearly identical penetration and expansion in any situation, shot after shot. Bare gelatin shot with 10mm Auto HST (P10HST1S) at 10 feet.

HYDRA-SHOK DEEP NEW

The world has never seen a 380 Auto like our new Hydra-Shok Deep®. It's the first expanding 380 to consistently penetrate beyond the FBI-recommended 12-inch minimum. It joins a full line of loads that reach critical depths through common self-defense barriers, without over-penetrating.

380 Auto Redefined

Powered by the Hydra-Shok Deep design, the new 380 Auto easily meets the FBI's penetration guidelines, surpassing the 12-inch mark. Bare gel shot with 38 Special (P380HSD1) at 10 feet; 13.5 inches of penetration.

Deep Defense

A beefed-up center post and redesigned core give Hydra-Shok Deep loads the ability to hit critical depths through the most common self-defense barriers. Bare gelatin shot with 9mm Luger (P9HSD1) at 10 feet, 15 inches of penetration.

HYDRA-SHOK

Original Hydra-Shok remains one of the most popular choices among self-defense experts. We use stringent manufacturing processes and rigorous testing to ensure Hydra-Shok loads perform accurately and consistently. Low Recoil offerings provide similar performance while significantly reducing muzzle rise, improving accuracy and target acquisition.

AND BALLISTICS, REFER TO PAGES 41-42.

PERSONAL DEFENSE® HANDGUN

PUNCH NEW

Protection now delivers a knockout blow. New Punch™ draws from Federal® Ammunition's decades of experience designing the world's finest defensive handgun loads. The bullet's skived jacket and soft lead core produce the best expansion and penetration for the price, while its nickel-plated brass and sealed primer deliver the reliable feeding and ignition you need to protect yourself.

SYNTECH DEFENSE

Syntech® changed the range forever. Now the technology is revolutionizing protection as well. Syntech Defense™ provides dynamic terminal performance with a hollow-point bullet that separates into three segments and a deep-penetrating core on impact. The core penetrates 12 to 18 inches through bare ballistics gel and heavy clothing—a critical benchmark in self-defense situations and the best terminal performance of any round in its class. The petals create three secondary wound channels, each more than 6 inches deep, adding to the terminal effect.

TRAIN + PROTECT NEW

Honor the American birthright to bear arms. Federal® Train + Protect uses the VHP bullet design to provide both precise, practical, performance at the range, and instant reliable expansion on impact. **Now available in 380 Auto, 357 Magnum and 38 Special.**

PERSONAL DEFENSE REVOLVER

Get the accuracy and reliability you can trust to stand your ground. Our revolver loads feature Federal brass and primers, and they are loaded with a jacketed hollow-point bullet.

PERSONAL DEFENSE® SHOTSHELL

FORCE X2

NEW

Turn your shotgun into the ultimate defensive platform with new Force X2™ from Federal Premium®. Its nine copper-plated 00 FX2 buckshot pellets are specially engineered to split into two equal-size pieces on impact. This doubles the number of wound channels from nine to 18, improves the transfer of energy from the payload to the target, and minimizes the potential for over-penetration, reducing the risk to bystanders. Force X2 is also loaded for more manageable recoil, allowing the shooter to stay on target for faster follow-ups and better accuracy in a self-defense situation.

Double Trouble

Split pellets are designed to separate on impact, doubling the number of wound channels in a nine-pellet 00 buckshot load to 18.

BUCKSHOT

Make the threat scatter. Federal Premium buckshot penetrates to optimal depths for effective self-defense. Loads with the FLITECONTROL® wad system deliver the tightest patterns possible.

.410 HANDGUN

The .410 handgun has emerged as a popular option for self-defense, and Federal Premium® offers a variety of loads for these specialized firearms. A customized hull design, optimal brass thickness and fine-tuned payloads make these perfect for .410 handguns.
