

**NEW!**

224 VALKYRIE

# 224 VALKYRIE

**THE WORLD'S BEST MSR 15 CARTRIDGE JUST GOT BETTER**

In 2018, we transformed the MSR 15 platform and broke all boundaries of ballistic performance by introducing the 224 Valkyrie cartridge. Now we're giving hunters and shooters three new loads that stretch the cartridge's capabilities even further: 80.5-grain Gold Medal® Berger® Hybrid, 60-grain Hornady® V-Max® and 78-grain Barnes® Triple-Shock® X.

## NEW & IMPROVED MATCHKING

Sierra has made the 90-grain MatchKing an even better fit for 224 Valkyrie, giving the bullet a thicker jacket that gets peak precision and consistency from the cartridge.

## THE HARDWARE TO PROVE IT

The 224 Valkyrie's flat trajectories, low recoil and extreme long-range capabilities have not only resulted in millions of rounds sold, they've earned the cartridge accolades including the NASGW Caliber Award, Ballistic's Best Magazine's Best New Cartridge Award and Big Rock Sport East's Best New Ammunition Award.

## FLATTENS THE COMPETITION AT 1,000 YARDS

Despite its popularity and versatility, the MSR 15 has never offered practical 1,000-yard performance. That's all changed thanks to the heavier bullets and extremely high ballistic coefficients of 224 Valkyrie. Loaded with the 90-grain Gold Medal Sierra MatchKing, the cartridge offers as much as 127.88 inches less drop and 68.76 inches less wind drift at 1,000 yards when compared to existing MSR 15 cartridges.

LOAD NO.	BULLET	CALIBER	GR.
<b>NEW</b> V224VLKVM60	HORNADY V-MAX	224 VALKYRIE	60
P224VLKBT1	NOSLER BALLISTIC TIP	224 VALKYRIE	60
AE224VLK1	AMERICAN EAGLE® FMJ	224 VALKYRIE	75
