

HYDRA-SHOK DEEP®

THE ORIGINAL MADE BETTER

Last year, we reinvented the proven Hydra-Shok bullet design with Hydra-Shok Deep. Now we've expanded the line with new loads in 40 S&W and 45 Auto. The new offerings' design improvements better meet modern performance measurements. The bullets feature a more robust center post and a core design that penetrates to critical depths through common self-defense barriers, without over-penetrating.

ORIGINAL HYDRA-SHOK

For decades, shooters have relied on original Hydra-Shok for effective self-defense. The time-tested design is still available in the full spectrum of popular loads for concealed carry and home defense.

NOW AVAILABLE AS A
COMPONENT BULLET

TECHNOLOGIES

- Hydra-Shok Deep Bullet
- Robust Center Post
- Specially Formulated Propellant
- Nickel-Plated Brass
- Renowned Federal Primer

NEW!

PERSONAL DEFENSE®

BETTER PENETRATION

Hydra-Shok Deep features a new compact core that drives more consistent penetration through common barriers. Bare gelatin shot with 9mm Luger Hydra-Shok Deep (P9HSD1) at 10 feet.

POWER POST

Hydra-Shok Deep's new reinforced center post and hollow point design provide better, more consistent expansion through clothing and other barriers commonly encountered in self-defense situations.

HST®

TRUSTED BY LAW ENFORCEMENT, DESIGNED TO PROTECT EVERYTHING YOU CARE ABOUT

It provides everything needed in a self-defense round: consistent expansion, optimum penetration and superior terminal performance. It's HST and it's already the duty load of choice for law enforcement officers everywhere. That's why you can trust it to protect what matters most.

NOW IN 10MM AUTO

HST has never packed this kind of punch. The all-new 10mm Auto load's 1130 fps muzzle velocity, combined with the exclusive HST design, fuels extremely large, consistent expansion that stops any threat.

AMBASSADOR SPOTLIGHT: JULIE GOLOB

She's a veteran, an author and one of the most accomplished competitive shooters of all time. She's Julie Golob and whether she's training, competing or teaching the next generation of shooters, she relies on Federal Ammunition. Learn more about her at juliegolob.com.

CONSISTENCY COUNTS

The exclusive HST bullet is engineered to expand extremely reliably and retain nearly all of its weight through almost every kind of barrier. The result is consistent, nearly identical penetration and expansion in any situation, shot after shot. Bare gelatin shot with 10mm Auto HST (P10HST1S) at 10 feet.

38 SPECIAL +P HST MICRO

The HST product line is even stronger thanks to its first-of-its-kind 38 Special +P load. The cartridge is optimized for use in concealed-carry platforms, with a buried bullet design that eliminates air space for five times more consistent velocities. Its bullet allows better function, deeper penetration and softer shooting in short barrels, while the HST design provides superb, consistent expansion.
